Aprilaire filters create healthy clean air in homes that reduce the amount of airborne viruses in a home, increase indoor air quality, and support family wellness. By using an Aprilaire whole-home air purifier and air filters, you can reduce viruses, allergens and other particulates, and control the purity of the air in your home.

The Aprilaire Pure Fit Promise guarantees a filter that was not only made to fit flawlessly into your Aprilaire system, it delivers purer, healthier air.

Our Patented Self-Seal Technology reduces bypass, improving filter performance and providing superior protection of your home and indoor air quality health.

The Aprilaire Interlock Rail System allows your high performance air filter to work without assembly of cardboard or metal reinforcements.

Should your new indoor air conditioner coil require a professional cleaning in the next 10 years, Aprilaire will pay \$100 toward a cleaning by an HVAC contractor.
